

To install DOSwriter on the Boox 7 :

Click on the download link :

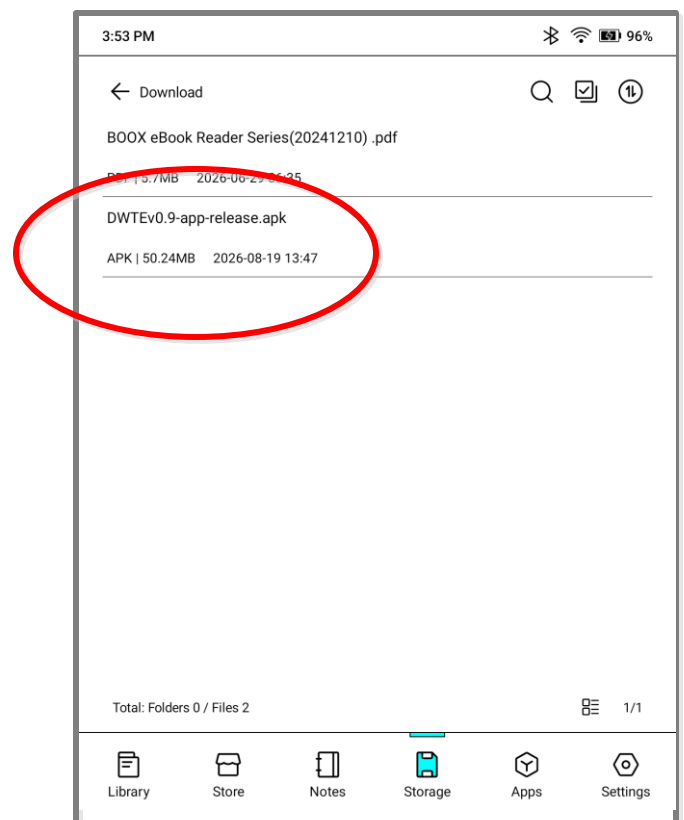

<https://github.com/ElmerWorks/DOSwriter/releases/download/Pre-release/DWTEv0.9-app-release.apk>

This will download the app "APK" file which is the installation file. If you download it to a PC then connect your Boox with a USB cable and copy the file to the Download folder.

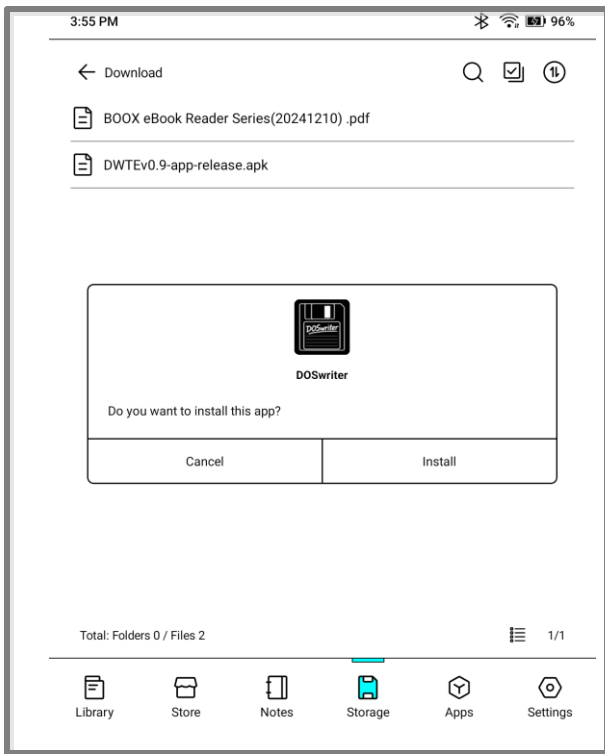

If you download it over wifi to your Boox it will go the download folder.

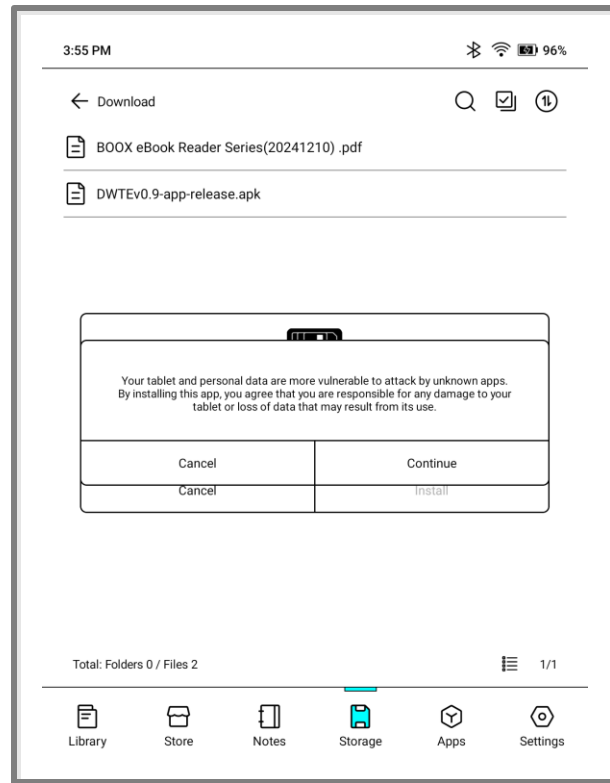

Tap on the Download folder

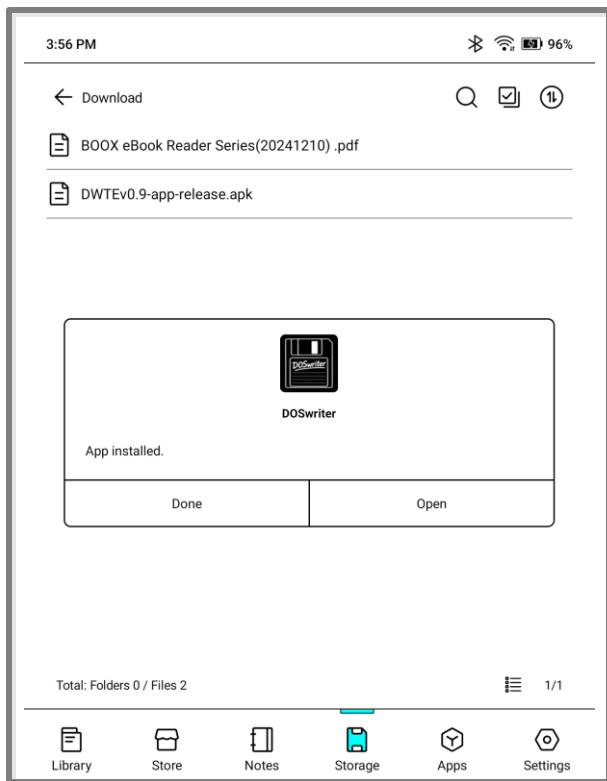

**Select the file :
APK DWTEv0.9-app-release.apk**

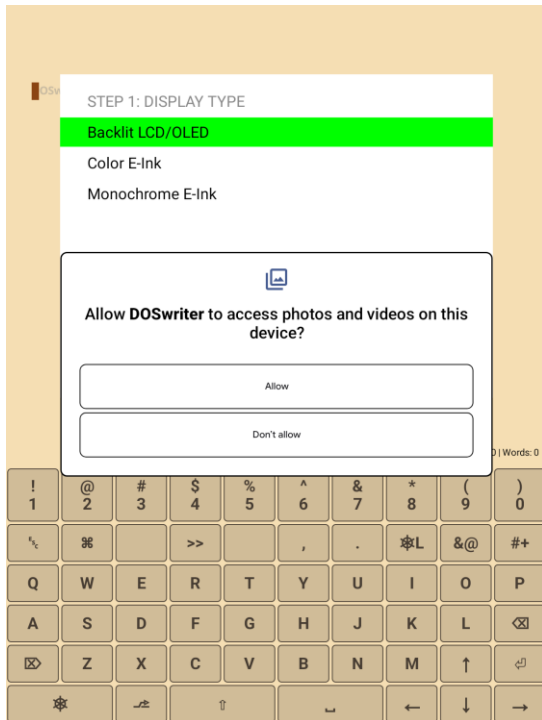

Select Install

Select Continue

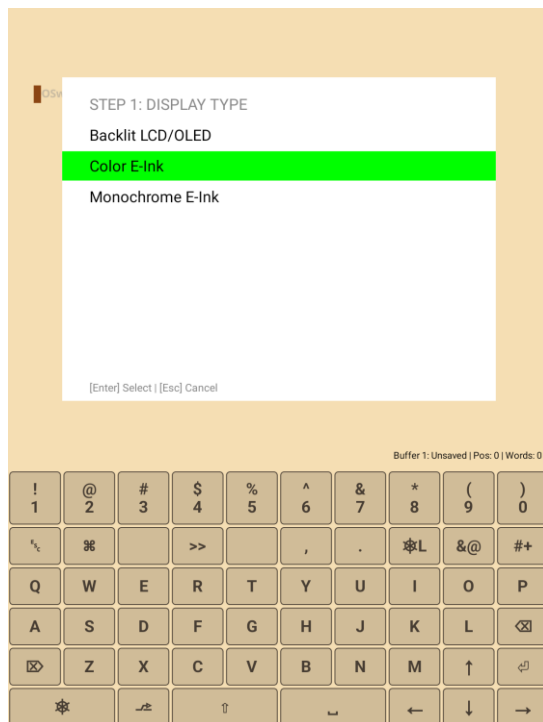

**The app will install. On some devices
Android will ask if you want to scan
the file? Select YES**

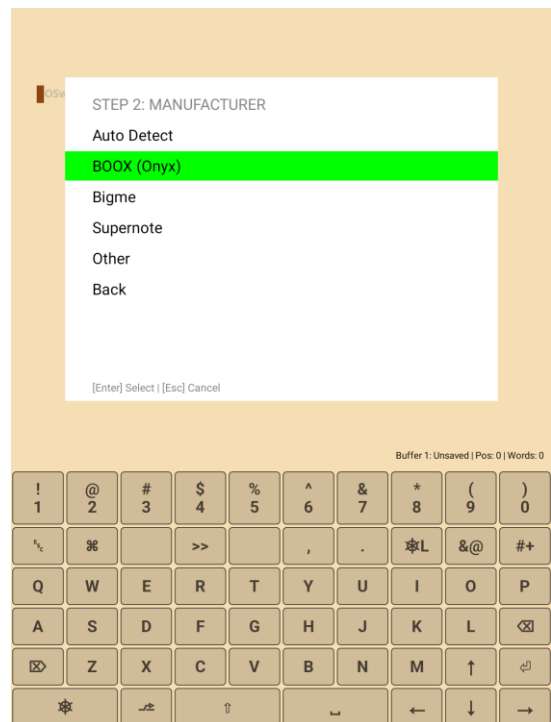

Select Allow

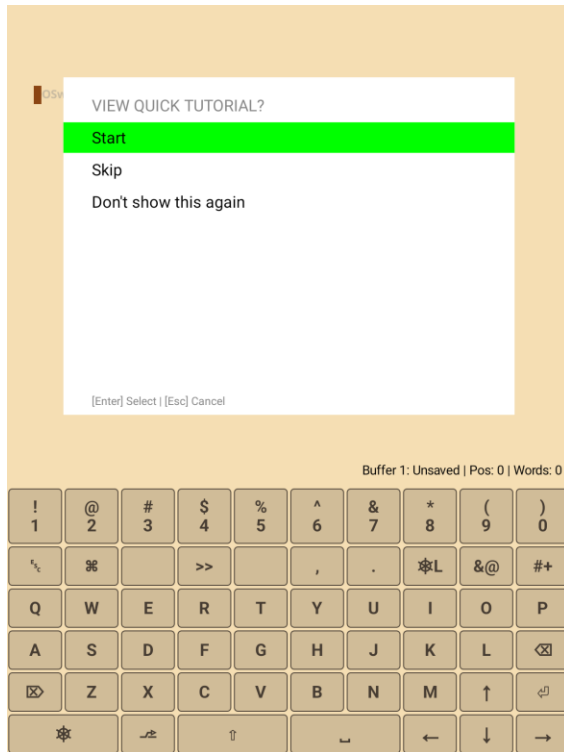

The popup Help message
will be displayed.

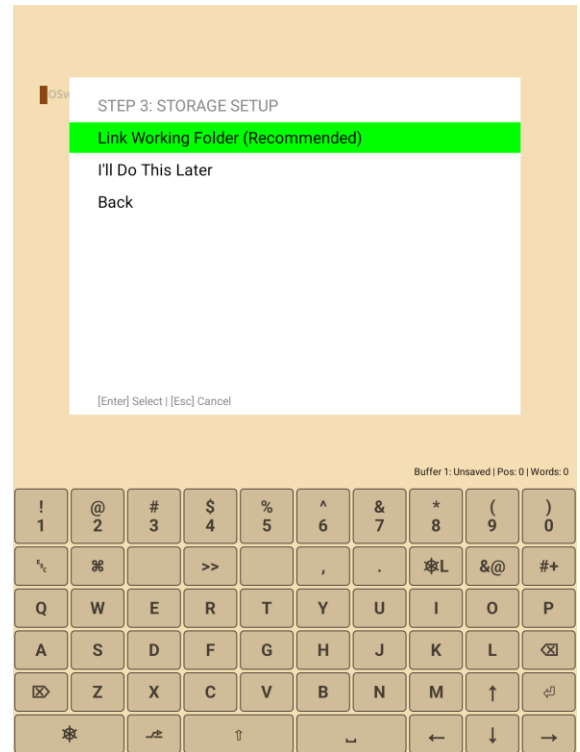

Select Color if Boox Color,
otherwise Monochrome

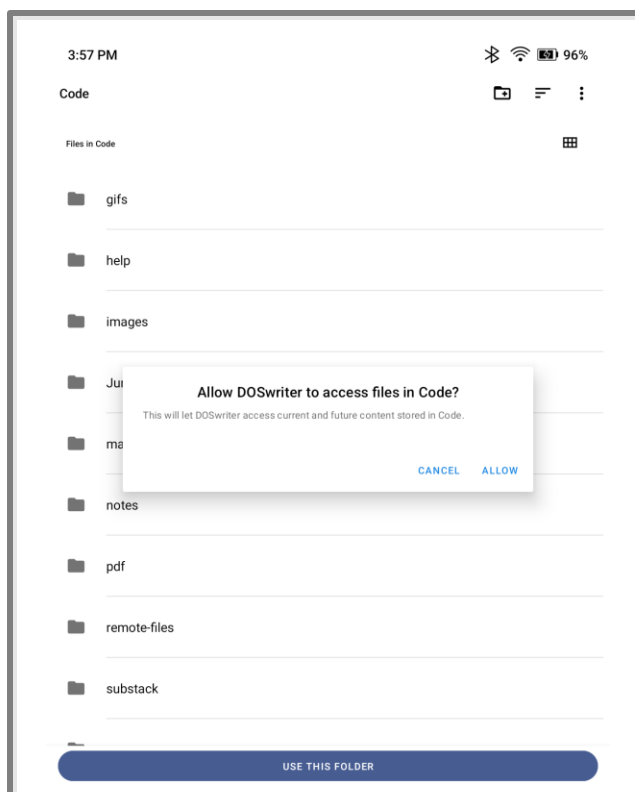

Select Boox

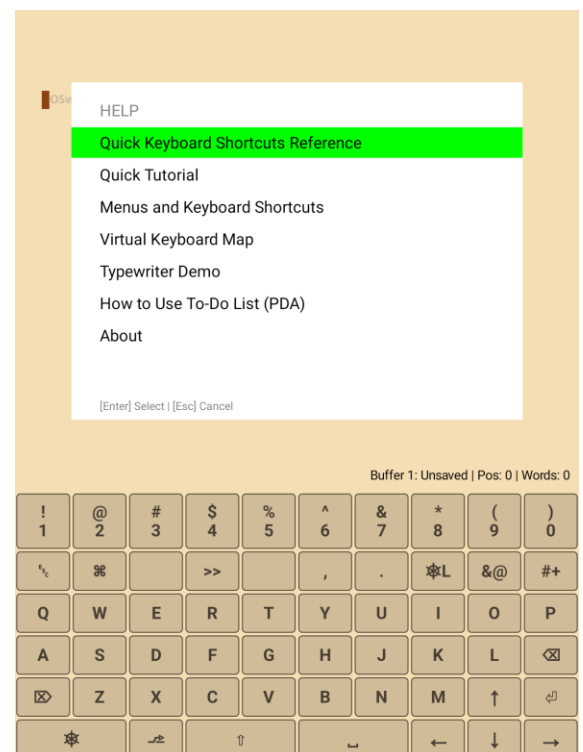

Press Esc or Skip Quick Tutorial

**To use the DOSwriter File Manager,
set up a working folder on your
device**

**Choose your working folder,
then press Allow**

**ALT-H will open
Help topics menu**
